SHABAB Strategy Highlighting and Building Abilities for Business is one of the projects of the Syrian Trust for Development headed by Asma al-Assad. It is a nonprofit Syrian project that works on rehabilitating and developing the skills of young people between the ages of 15 and 24. It is the first project of its kind in Syria that aims to support the culture of organising and operating a business among Syrian youth to encourage them to enter the business world and provide young people with skills that enable them to become productive members of society. It also aims to create a positive impression on the Syrian society towards working in the business world and establishing small projects.

SHABAB Project aims to provide practical training and career advice to university students to improve future employment prospects. The training courses range from the rules of conducting job interviews and writing a CV or enhancing knowledge of the business environment and developing professional skills. Certified coaches and career advisors coach and guide students as they search for a job in the labour market or evaluate their career while the courses for outstanding students who aspire to be pioneers focus on teaching the basic principles of business and helping them develop their own businesses.

B- Read the following text then do the tasks below:

I am a medical intern in a hospital, London. Nowadays we have a lockdown because of COVID-19. We have also prohibited any international flights, as well as regional flights. We are ensuring that we are practicing social distancing. We have also had nonessential services, temporarily closed and the situation looks good and hopeful. Being a key worker in the UK during this time, when we are faced with the difficulty of a new virus, we, doctors, are really pressured with double shifts. And when other doctors go into isolation, we are more than happy to fill in the spots because our priority is the patients. Please do read credible sources, for example the World Health Organisation. They have regular updates, where you could be updated, and it's very important that you don't read any other sources that aren't credible because this could provide an area of misunderstanding and misinformation that's been spread. So to everyone, especially the youngsters at home, currently now, I know that we are all missing our family and friends. Just be encouraged to know that this will soon be over. Our life will go back to normal and we'll just look at the world in a totally different way.
